

Watering Can Photo Frame

You will need:

Wooden photo frame
Empty food box, coloured paper,
pencil, scissors, glue stick.

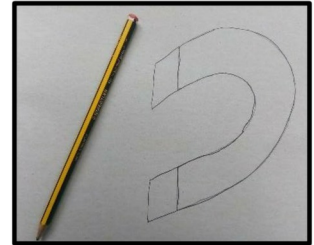

1. Carefully open up the empty food box.

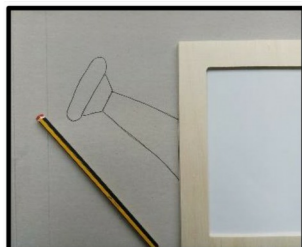

2. Take the wooden rod off frame & keep safe! Place picture frame on box.

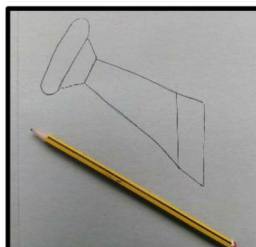

3. Draw a handle for the watering can.

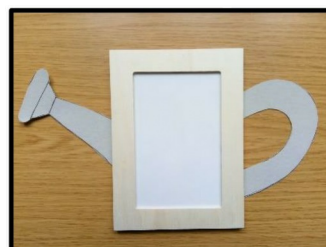

4. Add another 1 inch to ends of handle (to attach to frame). Cut out.

5. Place picture frame back on card. Draw a spout for the watering can.

6. Add another 1 inch to end of spout (to attach to frame). Cut out.

7. This is what the watering can will look like (the 1 inch extra bits will be at the back).

8. Cut the coloured paper into small pieces.

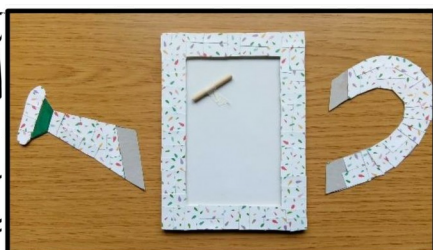

9. Cover the frame surround in glue & stick on paper pieces. Cut off excess paper.

10. Cover the handle in glue (not the 1 inch extra on ends) & stick on paper pieces. Cut off excess paper.

11. Cover the spout in glue (not the 1 inch extra on end) & stick on paper pieces. Cut off excess paper. You could colour some to show the different parts of the spout.

12. Get all pieces together.

13. Turn frame over. Make sure the hole for the rod stand is at the bottom. Glue the 1 inch parts of handle & spout & attach to frame.

14. Insert photo of your family & push rod into hole to stand photo frame.
